Exchange  
students

# Join the Buddy Programme

The initiative aims to connect students from the University of Bologna (Alma Mater - Università di Bologna) with students from other European and non-European countries with the aim of helping each other to discover the city and to practice a foreign language.

▶ Do you want to improve your knowledge of the Italian language?

▶ Do you already know the city of Bologna?

▶ Do you want to get in touch with other students?

Being an exchange student can be exciting, but it can also be difficult, especially in the first weeks. The Buddy Program, known all over the world, pairs up exchange students with current students enrolled in the University of Bologna.

The Buddies are volunteer students that, based on their individual availability, provide friendly support to foreign students.

During the exchange semester, the Buddy is asked to carry out some specific activities with the student partner, such as:

- Familiarize you with the university areas, in particular the Filippo Re campus and the main areas of the city;
- Help you solve practical problems;
- Accompany you to events organized for foreign students;
- In general, giving you the best advice on how to better live the Bologna university life.
